

## Advantages of a Victron PV System

- ✓ The free online VRM portal gives valuable insights into the PV system's performance.
- ✓ Data collected via the VRM can assist to determine how to upgrade the system if necessary.
- ✓ Remote monitoring and assistance.
- ✓ Control software (ESS) optimizes the systems performance and prolongs battery life.
- ✓ Inverters can be connected in parallel – meaning an installation can be upgraded with ease.
- ✓ Outstanding local backup and support.
